

DRAWN TO INSTANT DEATH

DEADLY RAILROAD FROG CLAIMS
ANOTHER VICTIM IN DOUG-
LAS YARD.

Switchman Frank Wallace's Foot
Caught—Before He Could Withdraw
It Was Knocked Under Tender of
Engine Backing Down to Him.

(Special to Review.)

Douglas, Dec. 23.—This morning at about 11 o'clock Frank Wallace, a switchman, was instantly killed by switch engine No. 302 in the yard southwest of the car shops. Mr. Wallace, who had been in the employ of the Southwestern for about two months, was intending to step on the footboard at the rear of the tender as the engine was backing towards him. He put one foot on the board and it slipped between the main rail and a switch rail; as he was wearing heavy laced boots with a thick sole he was unable to withdraw his foot, and was forced under the rear trucks of the tender.

Yardmaster Strain was standing on the board and reached to catch Wallace as he fell, but he went down so quickly that it was impossible to catch him before he was under the wheels. Strain signaled the engineer, who had shut off the steam and set the brakes, but too late to save Wallace, who was run over by all the wheels on the right side of the tender. Wallace's body was badly mangled, and death was instantaneous. Word of the terrible accident was sent at once to town, and Judge Johnson, the coroner, summoned a jury which was taken to the scene of the accident to view the remains.

At 2 o'clock this afternoon the coroner's jury met at the court room heard the evidence given by the witnesses. The evidence was practically the same as is given above. The verdict brought in gives the cause of death as an accident for which no one was to blame, and places the age of the deceased at 26 years.

Mr. Wallace has a mother and sister living in this city, who recently came here from New Mexico. He was a young man of splendid qualities, sober and industrious, and was very well thought of by his employers and associates.

FIRE BURNS \$250,000.

Money Shipped By Banks Is Destroyed
In Express Car Fire.

Worcester, Mass., Dec. 23.—The Adams Express Co. loses nearly a quarter of a million dollars by a fire which destroyed one of its cars on the owl train on the Boston and Albany Railroad, which left New York at 11 o'clock Thursday night and was due to arrive in Boston shortly after 6 o'clock Friday morning. The loss includes bank bills and coupon bonds, all negotiable paper, in transit from New York banks to other banks. When the safe containing the bank bills was opened it was found the packages retained their form, but the contents were so badly charred it is believed impossible to obtain their redemption.

GREENE CONSOLIDATED.

The recent raid on Greene Consolidated in the closing out of marginal accounts, up to within a short time ago, this stock was bought for investment only, and purchased outright, but the rapid rise the past few weeks has been the means of attracting the speculator, as well as the investor and brokers report the stock has been carried in large amounts upon a margin of 5 to 10 per cent. A portion of this element has been eliminated by the rapid decline, and many stop orders have been reached; consequently we look for an advance from present prices before any serious decline.

We have always been believers in Greene Consolidated, and purchases of the stock around 24, net the investor 8 per cent yearly.

friends.

TROLLEY LINE FOR DOUGLAS

STREET RAILWAY COMPANY OF
THE SMELTER CITY DECIDES
ON CHANGE.

Electricity to Be Made the Operative
Power at the Earliest Date Possible.
New Equipment to Be Purchased for
Line.

(Special to Review.)

Douglas, Dec. 23.—The city of Douglas is coming forward by bounds. Within a few days it will have an electric street car system second to none in the country. Last night S. F. Meguire went to Bisbee to attend the monthly meeting of the Douglas Street Railway company to report on the result of his investigation of the various kinds of motive power for street railways. He made a complete report on the gasoline motor which had been contemplated for use here on the line.

The directors considered the gasoline motor to be inferior to electric power, and at once decided to install the most modern system of electric propulsion for the Douglas street car. The work of installing the new system and plant required, will begin within thirty days. A man to plan the system will arrive just as soon as he can be brought here.

Besides the change in power many other up-to-date improvements will be made on the system. A new equipment of cars will be put on and the service to the smelters will be doubled. New lines of track will be laid, but on just what streets has not yet been decided, but soon will be.

This improvement of the street railway system is one of the most progressive movements yet made in this city. It will greatly increase the value of city real estate, and will be a great accommodation to the residents of this city. The Douglas Street Railway company believes in doing things and doing them right, and this movement for better street car service is the best thing they have as yet contemplated.

With new car shops, two new railroads and the new street car system Douglas has something in store that means the greatest prosperity ever reached in this city, and the best part of it all is, that there is not long to wait for all these good things that mean dollars for the business men and property owners, and better times for everybody.

P. & E. CONSTRUCTION.

Will Have No Obstacles in Way From
Dudleville.

The Benson Press says A. Randall, right-of-way agent for the Phoenix & Eastern, was in town Tuesday and Wednesday. He is securing rights of way from property owners between Dudleyville and Benson, and he has nearly completed that work. Mr. Randall informed the Press that the P. & E. were paying no attention to the injunction as far as securing the right of way this side of Dudleyville was concerned, which would indicate that the P. & E. have faith in regaining the road constructed between Kelvin and Dudleyville, which was recently awarded to the A. & E. by Judge Doan. The new road is expected to reach Benson some time next year no matter what obstacles are thrown in its way.

There is no contention over the right of way between here and Dudleyville and it will not take long to complete the road after the resumption of work.

TO THE STOCKHOLDERS OF THE
BISBEE CONSOLIDATED COP-
PER COMPANY.

The regular annual meeting of the BISBEE CONSOLIDATED COPPER COMPANY will be held in Bisbee, January 25, 1905, at which time there will be transacted any business properly coming up before said meeting.

MEN ARE POWERLESS

To Fight Against Disease Unless They Strike at the Underlying Cause.

To treat Dandruff, and Falling Hair, with irritants or oils on which a scabrous germ will prosper, is like scooping water from the ocean to prevent the tide from rising.

You cannot accomplish a satisfactory cure without having a right understanding of the fundamental causes of the trouble.

You must kill the Dandruff Germ. Newbro's Herpicide does this because it is specially made to do that very thing.

When the germ is removed, the hair has no choice but to resume healthy growth and beauty.

Destroy the cause, you remove the effect.

Sold by leading druggists. Send the 10 stamps for sample to The Herpicide Co., Detroit, Mich.

The Bisbee Drug Co., Bisbee, Arizona.

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. Cheney & Co., Toledo, O.
